

Ask an -ologist: How to connect with STEM experts

5/25/2017 1:30:00 PM

1 Hour

Education

North 131C

There is an increasing push within the STEM community to perform outreach and education. We discuss some of these projects and how you can connect with them to bring experts into your classroom.

Teachers will discover resources for bringing scientists into the classroom, how to facilitate a science cafe and discussion points for student engagement with working researchers.

Deborah Haralson, Associate Professor at Grand Canyon University

Al Pajak, Professional Development Facilitator, Arizona Science Center

Nicole Bowers, Grad Research Assistant, Learning, Literacies and Technologies, MaryLouFulton Teachers College, Arizona State University
