

Democracy Has Been Hacked: The Science of "Mr. Robot"

5/25/2017 4:30:00 PM

1 Hour Science North 132A

"Mr. Robot's" portrayal of hacking has been described as "unusually accurate." In this panel, experts will discuss the usually poor depictions of hacking found in media and why "Mr. Robot" is the exception.

Teachers will discover resources for teaching about hacker culture, current topics in internet privacy and discussion points for student engagement in cyber ethics.

Ryan Ang, Graduate Student, Computer Science, Ira A Fulton Engineering, Arizona State University

Richard Larkins, Systems Engineer, Sr. Staff General Dynamics Mission Systems

Peter Hefley, Penetration Tester at Focal Point Data Risk, 6+ years cyber security
