Aliens used to tell us to "Take Me To Your Leader!" In Arrival, the aliens had to be taught English first. Why is this a movie that scientists love and what can you learn from it?

Teachers will take away a valuable lesson in linguistics and communication which will be able to help when minimize the language barrier when communicating and teaching foreign students.

Jackie Monkiewicz, Graduate Student, Astrophysics, School of Earth and Space Exploration, Arizona State University

Patrick Young, Graduate Degree, Astrobiology and Astrophysics, Arizona State University

Carrie Gillon, Graduate Degree, Linguistics and Communication, University of Manitoba
