

## Finish the Fight: The Science of Halo

5/25/2017 4:30:00 PM

1 Hour          Science          North 132BC

The Halo universe features exotic technologies such as sometimes-malevolent AIs, gravity hammers, and sticky grenades. Our team of experts talk Halo and the evolution of combat.

Teachers will discover resources for teaching science speculation in video games, current topics in world building and discussion points for student engagement in popular culture.

Michael Fillman, Aerodynamics Engineer at Boeing

Michael Moran, Graduate Student, Biochemistry, Liberal Arts & Sciences, Arizona State University

Stephanie Montes, Software Engineering, Ira A Fulton Engineering, Arizona State University
