

Good News Everyone! The Science of Futurama

5/25/2017 7:30:00 PM

1 Hour Science North 132BC

Can we ever preserve heads in jars? Is smell really the best way to explore the cosmos? Step into our cryo-chamber and get a glimpse into the science of our wacky future.

Teachers will discover resources for teaching science speculation on television, current topics in futurism and discussion points for student engagement in popular culture.

Michael Fillman, Aerodynamics Engineer at Boeing

Jordan Yaron, Postdoctoral Research Associate, Biodesign, Arizona State University

Alex Andre, Graduate Student, Molecular and Cellular Biology, Liberal Arts & Sciences, Arizona State University
