Science

North 132BC

At the end of 2015, NASA began a search for the next generation of astronauts. Learn what it takes to become an astronaut, and what steps you can take to have your own moonwalk.

Teachers will find out what it takes to become an astronaut, and techniques for engaging students in STEM careers.

Sarah Braden, Graduate Degree, Astrogeology, Machine learning, HireIQ Inc

Gerard van Belle, Graduate Degree, Astrophysics, Lowell Observatory

Annie Wargetz, Graduate Degree, Human Spaceflight, Osiris-REX, University of Arizona

Kristina Davis, Graduate Student, Astronomy and Engineering, Arizona State University
