Science

North 132BC

Although very different, Dollhouse and Get Out both include precise manipulation of the brain as critical plot points. Based on our understanding of the brain, would manipulating the mind to the extent seen in these media ever be possible? Experts discuss!

Teachers will discover current topics in neuroscience and the science of learning and memory.

Teagan Wall, Doctorate Degree, Neuroscience, Biology and chemistry, Writer for Bill Nye Saves the World and Braincraft

K. Jacob Patten, Graduate Degree, Cognitive/Perceptual Psychology, Arizona State University
