

You Must Construct Additional Pylons! The Science of Starcraft

5/25/2017 6:00:00 PM

1 Hour Science North 132A

Rush over to this panel where experts will discuss the science behind Starcraft.

Teachers will discover resources for teaching science speculation in video games, current topics in world building and discussion points for student engagement in popular culture.

Troy Retter, Mathematics PhD Student at Emory University

Parker Castleberry, Grad Research Assistant, School Of Earth & Space Exploration, Arizona State University

Ryan Anderson, MSUS, Sustainable Solutions, Arizona State University

John Cornelius, Graduate Student, Molecular and Cellular Biology, Liberal Arts & Sciences, Arizona State University
