Thanks to poor password security the Empire had TWO Death Stars destroyed. In this panel cybersecurity experts will discuss this and other ways the Empire went wrong.

Teachers will discover current topics in cybersecurity and cybersecurity careers.

Deborah Haralson, Graduate Degree, Computer Science, Grand Canyon University

Prajwal Paudyal, Graduate Degree, Artificial Intelligence, Deep Learning, Machine Learning, Arizona State University

Brett Scott, 20+ years experience, Computer Science, Cybersecurity, Founder of Cyberwarefare Range, AVnet
