

From Ashes: What will remain when we're gone

5/27/2017 10:30:00 AM

1 Hour          Science                  North 131C

What do The Dark Tower and Mass Effect series have in common? Ancient and powerful precursor civilizations whose works still influence events. If there were to be a disaster that wiped out human civilization, what relics of ours would remain? What might future civilizations be able to learn about us?

Teachers will discover the current legacy that humanity will leave for future civilizations to inspire classroom discussion topics.

Lev Horodyskyj, Graduate Degree, School of Earth and Space Exploration, Arizona State University

Dante Lauretta, Graduate Degree, Planetary Science, Cosmochemistry, OSIRIS-Rex, University of Arizona

Ryan Stikeleather Graduate Student, Molecular Biology, Genetics, R Programming, Arizona State University
