

Psyche, CubeSat and OSIRIS-REx...Oh My! NASA's Love of Arizona

5/28/2017 10:30:00 AM

1 Hour            Science                            North 132A

Arizona might be one unique desert, but we recently made some great leaps into space. Meet our panelists as they guide you through our newest missions.

Teachers will explore the various ways Arizona is an analog to exploring space.

Craig Hardgrove, Graduate Degree, Geology, LunaH-Map 6U CubeSat, Arizona State University

Vishnu Reddy, Graduate Degree, Space Object Behavior Science, Spectroscopy, Lunar and Planetary Laboratory, University of Arizona

Lucille Le Corre, Graduate Degree, Planetary Sciences, OSIRIS-Rex, Planetary Science Institute

John Christoph, Graduate Student, Planetary Geology, Arizona State University
