Science

North 132BC

Aliens! The sci-fi cult show that paired the believer with the skeptic now gets the science treatment. Can Mulder's theories and explanations that ultimately convinced Scully convince our team of experts as well as their scientific equipment.

Teachers will discover the STEM career opportunities in law enforcement, the scientific method demonstrated by the character Scully and learn about current topics in crime scene science.

Jim DeGraffenreid, Graduate Degree, Physics, Arizona State University

Carrie Gillon, Graduate Degree, Linguistics and Communication, University of Manitoba

Jeffery Tinius, Graduate Degree, Psychology, Behavioral Biology, Neuroscience, Phoenix College

K. Jacob Patten, Graduate Degree, Cognitive/Perceptual Psychology, Arizona State University
