

ARIZONA CAPITOL
SCIENCE CAFÉ

Blockchain & The Future of Credibility

Monday, March 25, 2019

Arizona House of
Representatives
1700 W Washington, Phoenix
Copper Room 35/38 (Basement)
11:30AM-1PM

Please join our panel of technologists for a casual Q&A session on the past, present and future of Blockchain technology--digital information (the "block") stored in a public database (the "chain").

We'll discuss current projects that use blockchain technology to ensure security and privacy as well as highlight local peer-to-peer network projects including The Phoenix Project.

This event is produced in association with **Representative Mitzi Epstein** by **RealTimeSTEAM**, an Arizona Nonprofit, specializing in producing popular science programming for the public including conferences, pop culture events, gallery installations and speaker sourcing.
